In the whole Western Balkan region...

- In-year budget reporting, either monthly or quarterly, is transparent and accessible in the region.

- In Albania, Ministry of Finance submits PIFC reports to the government as part of the annual reporting package on the annual budget statement, and both documents are sent to the Parliament.

- Albanian Supreme Audit Institution (SAI) communicates PIFC information to the public.

- In Western Balkan countries, SAI are of the opinion that the audit work is not published in a timely manner.

- In countries like Serbia, Montenegro, Kosovo, and Macedonia, SAI are the only ones that submit annual budgetary reports.

- SAI of each country prepares summaries of annual reports, except for Albania.

- In order to make the PIFC information available, SAI prepares and publish citizen-friendly summaries of annual reports.

- SAI obtain citizen complaints and suggestions.

- They do not have any communication mechanisms related to the issue specifically designed for the submission of audit suggestions or tips.

In the western Balkan region, the public availability of information on PIFC and parliamentary scrutiny is quite low in most of the region.
